

MUSEUM OF CONTEMPORARY FORESTAL PARK

“The Open Mapping exhibition will be held on the facade of the Museum of Contemporary Art at Forestal Park.”

The Museum of Contemporary Art occupies the west wing of the Palace of Fine Arts, originally occupied by the Academy of Fine Arts. This neoclassical building, inaugurated in 1910, was designed by the architect Emilio Jecquier as a commemorative work of the Centenary of the Republic of Chile. In 1974, the MAC moved to this space, which was declared a National Monument in 1976. Throughout its years it has suffered damages from fires and earthquakes, so it has been repaired on more than one occasion. (For more information, visit www.mac.uchile.cl/museo/buildings)

SUMMARY INFORMATION

Address: Ismael Valdés Vergara 506 (Forestal Park), Santiago, Chile.

Facade width: 40 mts. approx.
